

CORIPREV | LR

COVID-19 RING-BASED PREVENTION TRIAL
WITH LOPINAVIR/RITONAVIR

IMPORTANT:

**DO NOT OPEN THIS BAG UNTIL INSTRUCTED
TO DO SO BY THE STUDY COORDINATOR.**

WHEN INSTRUCTED TO DO SO BY THE STUDY COORDINATOR:

1. Write today's date onto one of the green lab requisitions in your study kit.
2. Wash your hands thoroughly with soap and water, or sanitize your hands with alcohol-based hand sanitizer, for at least **15 seconds**.
3. Next, without touching anything else, open this bag and remove only **one** of the smaller plastic bags and **one** of the paper bags inside. Reseal this bag.
4. Open the smaller plastic bag so that there is a wide opening at the top.
5. Drop your labelled sample directly into the smaller bag with one hand.
6. Use your other hand to seal the bag closed.
7. Put the sealed bag with the green, dated lab requisition into the paper bag.
8. Place the paper bag in the agreed-upon location at the entrance of your home for pickup, without letting it touch anything else.

The location for specimen pick-up must be OUTSIDE your home:

**eg. on your doorstep, on your porch, in the public entrance of your
apartment/condo building, etc.**
